MASSACHUSETTS: CYBERSECURITY RESILIENCY

Creating a **CYBER RESILIENT** Massachusetts to foster the **CYBERSECURITY ECOSYSTEM**

Massachusetts is a national leader with global impact in developing and deploying cybersecurity technologies and systems. By working together, public and private sector leaders in the Commonwealth can close gaps and drive solutions that make our state's economy **stronger and more resilient** to global cyber threats.

The **MassCyberCenter at the MasTech Collaborative** is the state's entity for supporting growth and innovation within the Commonwealth's cybersecurity community. The MassCyberCenter drives collaborations that increase and broaden our cybersecurity talent pool, build ecosystem connections among products, researchers, and customers, and promote and enhance our leadership status.

Cybersecurity Training & Education Working Group

The Cybersecurity Training & Education Working Group's mission is to support the training and education of cybersecurity professionals in the Commonwealth through collaboration and partnerships. The leadership at MassCyberCenter hosts monthly meetings of the Cybersecurity Training & Education Working Group that are designed to update the group on initiatives, discuss requirements to support education and training, and provide opportunities for members to collaborate.

Massachusetts is home to 12 of the world's hottest firms on the
Cybersecurity Ventures 'Hot 150 Cybersecurity Companies' list, for 2021
