

Scenario: PHISHING

Inject 6

Role: **INFORMATION TECHNOLOGY**

Detail:

- The VOIP (Voice Over Internet Protocol) server is displaying a Ransomware notice on its login screen similar to the one observed in Finance.
- The local on-site backup server is displaying a Ransomware notice on its login screen similar to the one observed in Finance.

we have copied all your sensitive employee and customer records and are prepared to post this information on the internet for all to see unless you pay us \$500,000 in Bitcoin by this Friday. That is two days from now.

Tomorrow the price will go up. Time is money.

If you don't believe we have any data, you can contact us and ask for proof.

When you pay us the data will be removed from our disks and we will provide the decryption key.

No decryption key is publicly available.

You have no other choice if you want your data restored and recovered.

You can trust our word. Contact us [here](#).

What do you do with this information?

CISA Cybersecurity Performance Goal:
Network Segmentation (2.F)
