

Massachusetts Cybersecurity Month October 2025

Cybersecurity is Economic Security

October is [Massachusetts Cybersecurity Month](#) and this year's theme is "Cybersecurity is economic security." It highlights the critical connection between strong cybersecurity practices and the economic health of Massachusetts businesses and communities. During the month, the MassCyberCenter is raising awareness of simple actions and best cybersecurity practices individuals can do to protect their economic future. These include:

- **Enabling multi-factor authentication**
- **Using strong passwords and a password manager**
- **Updating your computers and mobile devices regularly**
- **Learning how to spot and report phishing attempts, especially when they are designed to appear to be from your banking institution**

The month-long celebration highlights educational institutions, businesses, research and development (R&D) centers, policy leaders, investors, technology groups, and

more that drive the Massachusetts cybersecurity ecosystem. The ecosystem works to establish Massachusetts as a national cybersecurity leader while helping citizens and the state economy thrive in the face of growing threats.

Governor Maura Healey signed an [official proclamation](#) to formally announce Massachusetts Cyber Month.

Massachusetts Cybersecurity Month is held concurrently with [National Cybersecurity Awareness Month](#).

Stay Informed, Get Involved

Stakeholder Toolkit - Want to help get the word out about Massachusetts Cybersecurity Month 2025? Check out our stakeholder toolkit for graphics and text to share on social media to get people talking about cybersecurity.

Statewide Events - There are many opportunities for cybersecurity professionals, educational institutions, and businesses to showcase their capabilities and offerings as part of Cybersecurity Month, and to contribute to the advancement of cybersecurity across Massachusetts.

The MassCyberCenter's ninth annual Massachusetts Cybersecurity Forum brings together cybersecurity leaders from across the state to showcase the vibrant cybersecurity ecosystem, promote public and private partnerships and highlight Massachusetts as a national leader for cybersecurity.

The Forum will feature panel discussions on enhancing cybersecurity in the defense industrial base supply chain and creating collaborative opportunities for small businesses to improve cyber resiliency.

This year's Forum theme "**Cybersecurity is Economic Security**" emphasizes the critical connection between strong cybersecurity practices and the economic health of Massachusetts businesses and communities.
